

**LARGE CONTAINERS / LOGISTICS AND HANDLING****CARGOPALLET 600 NEW PLUS
FOR SUITABLE FOR HAZARDOUS SOLID
(Lead Batteries)**

The CARGOPALLET 600 NEW PLUS is available in the version approved for land and rail transport and for the storage of solid dangerous products in compliance with ADR regulations. The container is equipped with a string and an identification label showing the 4 types of batteries that can be stored: UN 2794, UN 2795, UN 2800 and UN 3028. Equipped with two bars on the long side, it is versatile and robust, with excellent rigidity structural and resists deformation.

The internal walls are smooth, it can be stored outdoors, it can be stacked and forkable. The overlapping of the Cargopallets 600 Plus is ensured by 4 cylindrical/spherical pins obtained directly from the mold on the upper part of the container, which fit into appropriate seats obtained on the bottom of the feet/beams of the container itself. The 35 mm recess guarantees maximum safety and stability of the overlap.

Capacity max:	550 litres
Max loading capacity:	500 kg (with uniformly distributed load) Overlapping: two other battery containers UN 2794, UN 2795, UN 2800, UN 3028 are permitted.
Container mass:	30 Kg.
Cover mass:	4,1 Kg.
liner mass:	480 g.
LDPE liner thickness:	0,15 mm
