

MULTIPLE USE CONTAINERS / ORGANIZATION AND STORAGE

TROLLEY BINS

The TROLLEY BINS help the differentiation of waste and its correct disposal. They are available in different colors: WHITE, YELLOW GREEN, BLUE, BROWN, GRAY and equipped with cushioning pads on the lid, which allow it to absorb the impact when closing. In addition to closing, the bins are equipped with a cushioning system during the opening phase of the lid which allows to eliminate the noise in the recovery phases of the municipal utilities, but also during the complete manual opening of the lid, preventing it from slamming. violently against the body of the bin. Equipped with sturdy solid rubber wheels, fixed by means of an anti-corrosion galvanized steel axle.

Colours: Ecological white Ecological yellow Ecological green Ecological blue
 Ecological brown Ecological grey
