The new lightweight, resistant MY-A Bis Pallets 1000x1200 with non-slip surfaces are the latest solution to logistical problems. Easy to use for moving goods, these products are designed for intensive usage, are stackables and rot-free, have a constant unladen weight and excellent electric insulation and are also ideal for use in computerised packaging plants. Made of synthetic resin, these pallets never need fumigation, are fully recyclable and damp resistant, which means that they can be stored in the open. Further, they are immune to the aggressive action of acids, fats and solvents and can also be produced in containment edges and for food.

**Static Capacity:** 4000 Kg (The capacity is valid for filmed charge equally distributed on the pallet surface).
